

National Surveyors Week

March 17-23, 2019

We're gearing up for National Surveyors Week, March 17-23. The purpose of Surveyors Week is to bring visibility to the profession and to educate the public on what surveyors do and why. We encourage you to play a part in your community and to encourage students to consider surveying as a career choice.

How can **you** help promote the profession?

- Get ideas from this helpful [volunteer kit](#).
- Download the Surveyors Week [flyer](#) and [poster](#) and put them up in your office.
- Order free kids' posters at getkidsintosurvey.com.
- [Send in your photos](#) from the field, and we'll feature them on the CALS website year-round.

Let's make it a great National Surveyors Week!
